MY RESPONSE TO A LOCAL BANK'S EXCESSIVE PROFIT DRIVE POLICY.

I considered your policy for senior citizens to mandatory have a balance of $15,000 in the bank in order not to pay a monthly charge debit of $15.00 ***a sign of an excessive profit drive, as I view your profit margins in the billions.***

Be that as it may, God manages such behaviour in the way only God can. Our present world crisis, a poignant example of God at work.

On the 15 of April I deposited an Income Tax Refund cheque of $8,117.00 in the ABM, with the assistance of the Bank Manager at the Independence Square Branch and withdrew $2,000.00, after realizing that their advertised policy for senior citizens to be the first served from 8am to 10am, was only effective for 5 days at the end of the month.

With the balance in my savings account of $10,888.84, the money in the bank was now $19,005.84.

On the 30th of April the money in savings was $ 20,039.59. Why then did you still deduct on April 30 another $15.00 monthly charges debit?

At 72 years of age, your behaviour to a senior citizen, leaves a loud question mark. I am seeing every time I come to Port of Spain, the long lines of senior citizens on the pavement in the blazing hot sun to do their old people business.

Your service needs to rise up to become a more sensitive corporate body, in my beloved Trinidad and Tobago, in my humble opinion.

Half of the month had your excessive profit drive option and the other half did not.

As I said earlier, God works as only God can and those with eyes to see and ears to hear must become fully conscious of what God can do to correct imbalances in behaviour, which borders on abuse. ***COVID 19 KILLS BY THE INABILITY TO BREATHE FREE AIR. NO AMOUNT OF MONEY CAN HELP YOU THEN.***

A word to the wise is an encyclopedia to the unwise.

Be advised accordingly.

Saturday the 2nd day of May 2020.
